

TAVVA NAGA VENKATA SAI LAKSHMI SUDHA RANI

+91 7013448217 / sudharanit10@gmail.com | [Portfolio](#)

SUMMARY

Frontend developer with 3 years of hands-on experience in designing and implementing scalable web applications. Proficient in utilizing a diverse tech stack including JavaScript, Redux and React.js to deliver robust solutions. Skilled in micro frontends architecture, ensuring modular and maintainable codebases. Proven ability to collaborate effectively in cross-functional teams to meet project goals and deadlines. Known for delivering high-quality solutions. Strong problem-solving abilities and passionate about continuously learning and implementing best practices in software development to deliver exceptional user experiences.

TECHNICAL SKILLS

| | |
|---------------------------------|---|
| Frontend Development | : HTML, CSS, SASS, Tailwind CSS, JavaScript (ES6+), Bootstrap, React, Redux, Material UI, Next JS, RESTful APIs, TypeScript |
| Backend Development | : Node JS, Express JS |
| Database | : MongoDB, SQL, MYSQL |
| Testing Frameworks | : Jest, React Testing Library |
| Micro-services and Architecture | : Micro frontends |
| Tools and Technologies | : Git, GitHub, Postman, Visual Studio |
| Project Management Methodology | : Agile (Scrum), Jira |

WORK EXPERIENCE

3 years of experience.

Cognizant

Dec 2021 – May 2024

PROJECTS

OUP Engineering Technology- MY MATH

Aug 2022 – Apr 2024

Organization

Cognizant (Frontend Developer)

Client : Oxford University Press

Category: Education

Technologies: HTML, JavaScript, CSS, React JS, Material UI, Micro Frontend, API, Git, Connect, Jira.

Description: This project is designed to provide an engaging and structured learning experience for students across various grade levels. It offers a user-friendly interface for both students and teachers, promoting efficient learning and progress tracking. Students can log in to their accounts to view their learning progress, access grade-specific chapters, and complete homework, practice, and assignment tasks. Teachers, serving as administrators, manage student accounts, assign tasks, monitor performance, and assess homework and assignments. The platform allows teachers to track each student's progress in real time, ensuring personalized feedback and grading. This practical learning tool fosters interactive and comprehensive math education for students.

Role and Responsibilities :

- Designed and implemented new user interfaces to enhance user experience and accessibility.
- Integrated new features to enhance application capabilities, driven by business requirements and user feedback.
- Integrated APIs to facilitate seamless data exchange and improve application functionality.
- Refactored and optimized code to enhance application performance, reducing load times and boosting efficiency.
- Analyzed and resolved production issues to maintain application stability and ensure a seamless user experience.
- Collaborated with back-end developers to integrate user interface elements into applications & Collaborate with designers to create visually appealing layouts for student progress tracking, chapter navigation, homework, practice, and assignment sessions.
- Conducted code reviews and provided mentorship to freshers, fostering a collaborative and knowledge sharing environment.
- Practiced in Agile ceremonies, such as sprint planning and retrospectives, to ensure smooth project progress

ONLINE EXAM PORTAL

Organization

Client : Internal Project

Category: Education

Technologies: HTML, JavaScript, CSS, React Js, Redux, Node.js, Express JS, Postman, Bootstrap, MongoDB, Git

Description: The project is an online exam portal designed to provide users with the ability to purchase and take mock exams for various purposes, such as government exams, foreign exams, or interview preparation. Upon logging in, users create a personalized profile that displays the categories of exams they are registered for. From the profile, users can select their desired exam category, which will take them to a dedicated dashboard showcasing available exams. To attempt an exam, users need to purchase it through the platform. Once the purchase is complete, an exam date is scheduled, and users are required to take the exam on the assigned day. After completing the exam, users can view their scores directly on the platform. The portal is designed to offer a seamless and user-friendly experience, ensuring easy navigation and accessibility for all users.

Role and Responsibilities :

- Implemented responsive and user friendly React components, ensuring high-quality code and optimal performance.
- Designed and implemented server-side logic using Node.js and Express.js, ensuring efficient and scalable code.
- Created and managed RESTful APIs to enable seamless communication between the client and server.
- Designed, developed and optimized MongoDB database, including schema design and indexing.
- Implemented data models and performed CRUD operations to manage application data effectively.
- Utilized Debugging tools and technologies to identify and resolve issues in both development and production environments.
- Conducted code reviews, identified and fixed bugs, and optimized application performance.
- Implemented continuous integration and development (CI/CD) practices to enhance development workflow and productivity.
- Provided clear and concise technical documentation to facilitate knowledge sharing.

CERTIFICATIONS

- Java Script Hacker Rank Certification
- Frontend Developer (React) Hacker Rank Certificate

EDUCATION

| | |
|--|-------------|
| Bachelor of Technology | 2017 - 2021 |
| Electronics and Communications Engineering | 7.5 CGPA |
| St. Ann's College of Engineering & Technology, Chirala | |
| Intermediate | 2015 - 2017 |
| MPC (Mathematics, Physics, and Chemistry) | 964/1000 |
| Vignana Bharathi Junior College, Chirala | |
| SSC | 2015 |
| Bhashyam High School, Chirala | 8.7GPA |
